

## ECO WELFARE UNITS ECO-FRIEDLY, EFFICIENT, RELIABLE

Our Anti-Vandal ECO Welfare Cabin is the ideal solution for any onshore welfare provision. These independently powered units provide restroom, canteen and office facilities and can be used in a variety of situations. Our welfare units are fitted with solar panels that charge a battery to power light and heat and is backed up by a small generator that will "top up" the battery during short periods of high demand (i.e. to run the hot water, kettle or microwave), making it one of the most energy efficient units available on the market.

## Specification

## ECO Welfare Units
