

## FLEX 33 Accommodation Modules

### Description

Experience luxury living offshore with the new FLEX 33 Accommodation Module. This unique accommodation solution is designed to maximise safety while providing a comfortable living environment, with all the facilities and finishing quality of a five-star hotel room. Compliant with the stringent ABS code, FLEX 33 has been engineered and built to provide comfort, safety, and reliability, meeting the highest global specifications and standards for offshore applications. FLEX 33 Accommodation Modules are available for hire or sale.

### Compliant for installation on ABS-classed vessels worldwide

In one of the world's most tightly regulated industries operating in the harshest environmental conditions, you need **safe and reliable** accommodation modules that will protect you and your personnel. Centurion Accommodation & Modular is already compliant with the stringent ABS code and **can be installed on all ABS-classed vessels worldwide**. This new generation of flexible and reliable modules will keep your personnel comfortable and safe in all global locations.

### Technical specifications

- **Detection and Alarm System:** Fire and smoke detection installed as standard
- **Electrical Connection:** The module operates between 220-415Vac, 50/60Hz and is supplied with a 30m power cable as standard.

### Dimensions and weight

#### Dimensions in mm:

10,058 (L) x 3,050 (W) x 3,200 (H)

**Tare weight:** 19,500 kg

### Global compliance

ABS, DNV 2.7-1, EN 12079, SOLAS, MODU, IMO, ILO, UK HSE, CE Marked

**Efficient, Safety-driven equipment, sales and rentals for  
our customers in the global critical industries**

FLEX 33 is **DNV 2.7-1 / EN 12079** certified, fully compliant with the latest **MODU** and **A60 FTP** requirements and is also **IMO** and **SOLAS** compliant for international use. It includes SOLAS A60 certified firewall, roof, floor, door and escape hatch. In line with ABS and other international certification and safety requirements, the modules can be stacked up to 4 levels on floating installations and on a fixed platform.

## Features and benefits

### Flexibility for your specific requirements

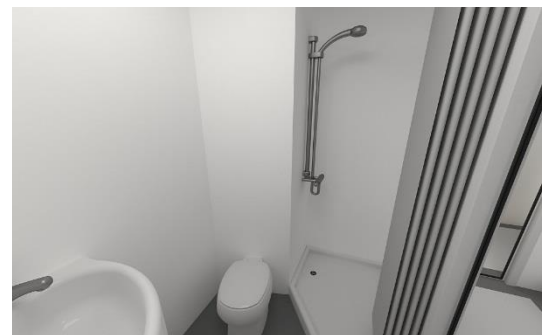

FLEX 33 modules provide you with **flexible bed space from 2 to 12 man**. Each module consists of a central corridor and two staterooms, accommodating 1 to 6 persons. Each stateroom provides distinctive **floorplan flexibility** including bunks, lockers and desk removal or addition to meet your project specific requirements for maximised space efficiency. The units are also available as **utility modules**, such as kitchen, mess, pantry, tea room, recreation room and more.

### From single units to complete Temporary Living Quarters

With **easy 'plug & play' hook-up** and integrated corridors, FLEX 33 can be hired as single units or as a complete complex with the central corridor, easily linking the units. Units can be stacked up to 4 modules high to create **TLQ complexes**. Modular walkway and stairwell solutions developed by Specialist Services are also available to complement all installations. All hook-up services are conveniently located at the recessed end of the module to make it efficient for installation and hook-up offshore.

### High quality and modern interior finishing and features

FLEX 33 features the latest digital, communication and entertainment technology as standard, each bed includes an **individual LCD TV** with CAT 6, HDMI, USB and audio connectivity. USB ports are also available for mobile phone charging, as well as network sockets with **Wi-Fi option** for each room. For **increased comfort**, the staterooms have individual bedside lighting, underfloor heating, a desk space with chair, convenient lockers and storage drawers, an IMO approved en-suite wet room with a spacious shower cabin, a sofa bed and LED lighting.

**Efficient, Safety-driven equipment, sales and rentals for  
our customers in the global critical industries**
